**Answers**

The Vertebrates

We live with all sorts of animals in California! Scientists like to classify these animals by their similarities. Uh-oh! Some of the classes below got mixed up. Draw an X on the animal that doesn't belong in each class. When you're done, fill in the name of the classes with either
**Fish, Amphibians, Reptiles, Birds, or Mammals.**
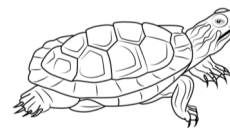

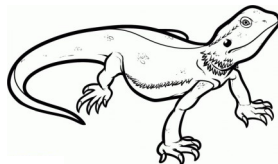

Class 1: Birds _____

Class 2: Mammals _____

Class 3: Amphibian _____

Class 4: Reptiles _____

Class 5: Fish _____
